

Wirth & Wirth Advertising News Release

Client: Metro Moulded Parts
Product: 1967 Camaro and Firebird Door Lock Pillar Seals

Did you know that the correct original Door Lock Pillar Seals for Camaro and Firebird were UNIQUE for the 1967 model year? For years restorers have been forced to rely upon expensive and nearly unobtainable New Old Stock (NOS) seals, or to use the slightly-different parts which were correct for 1968 and 69 models only. But now the resto-rubber professionals at Metro Moulded Parts, Inc have developed a correct Door Lock Pillar Seal for 1967 F-bodies only.

Molded from the latest high-tech rubber materials, this seal (*sometimes called "U-Jamb" Seals*) performs the critical job of aligning and cushioning the quarter window glass on hardtop models, especially when the glass is partially open or closed. Additionally, this important seal keeps leaves and other debris out of the quarter panel area. Details are absolutely correct on this new seal from Metro, including the metal inserts molded into the seal for strength and durability.

Feel the Difference with Metro Moulded Parts. For more information about Metro and their full line of high-quality rubber products visit online at www.metrommp.com or call them toll free. Ask about part number AP 11-A.
